Lilith. | Biography

Lilith. is the artist name of Khatia Tkavashvili, a Tbilisi-born, Berlin-based DJ and producer whose journey began in Georgia's underground club scene.

Over the years, Lilith. has continued to develop her sound and artistic vision through her work and performances. After experiencing different scenes and cultures, she found a strong connection with Berlin's techno scene and the community around it.

Techno is at the heart of her sound: deep, driving rhythms, smooth grooves, and a strong sense of flow. Her sets are built around a natural progression, where rhythm, energy, and atmosphere come together to create a distinct experience on the dancefloor.
