Nocturne | Biography

Nocturne is a French DJ based in Berlin. She crafts a sonic universe rooted in mental, immersive and tribal techno, drawing from hypnotic textures and electronica influences.

Her approach to mixing is deeply introspective: each performance unfolds like an inner journey, a sensory experience navigating between tension and release.

She builds dark, hazy, mystical soundscapes and has quickly stood out through her refined selections and assertive musical storytelling. Her ear was shaped through years of attentive listening, influenced as much by the precision of the Dutch scene as by the raw energy of Berlin's underground.

She has been invited to play at established venues such as FVTVR Paris, Kilomètre25 and Tresor Berlin, and has contributed podcasts to Oecus and BCCO, as well as a Loone livestream.

Nocturne is now forging a coherent path, balancing introspection, rhythmic exploration and a strong club foundation.
