X TiN | Biography

Austrian-born, X TiN uses sound to connect to the crowd through deep emotions and fills the room with atmospheric trips in waveform. Berlin, her hometown by choice, shaped her, exploring the worlds between progressive techno, hypnotic, psy/trance, electro/groove and ambient experimental, which she blends in non-genre-specific mixes since 2015 — as well as in live sets in collaboration with Butoh dancer Valentin Tszin, and AV work for New Media Artweek together with Santabro.

Adapting to the crowd's energy and the present vibe is her strong point. Distorted ambiances, blurring lines between styles and layering sceneries, while never lacking a specific taste and powerful character — an eclectic choice of rhythms send travelers through deep, mesmerizing and playful soundscapes, up to high-energy and powerful raw techno journeys.

X TiN's signature is described by a room full of intense feelings, sweat and a never-lost lust for moving bodies. Her sound could be heard around Berlin in clubs like Berghain, in Chicago and New York at Basement, in Seoul for Volnost, Prectxe and Faust, as well as in Taiwan for Korner and Pawnshop.
